REMARKS

In response to a Restriction Requirement mailed March 23, 2006, Applicant hereby elects the species of the present invention shown in Figure 8. Claims 1-11 and 13 read on this species. The majority of these claims also read on the more generic version of the invention shown in Figure 5. Claims 12, 14 and 15 are withdrawn. However, Applicant respectfully submits that claim 12 is sufficiently related to claim 11 that searching claim 12 would not place an undue burden on the Examiner. As such, claim 12 should be searched with the remainder of the claims.

Any questions should be directed to Applicant's below signed representative.

Respectfully submitted,
